

BRITPART FITTING INSTRUCTIONS

The quality parts for Land Rovers

Defender Light Guards

Part Number - DA4077

Pic A shows lower mounts. **Pic B** shows upper mounts and how the fixings are used.

1. Position the light guard in desired position and mark the location of the lower mount A.
2. Drill and fix the lower half using fixings A with the self-tapping screws provided.
3. Hold the light guard up in the desired position and mark the location of the large centre hole for the turnbuckle fixing.
4. Fold the guard down and drill this hole. You can then hold mount B on top of the wing and use it as a template to mark and drill the 2 outer rivet holes.
5. Fix mount B underneath the wing using the pop rivets provided from the top of the wing.
6. The top of the guard can now be fixed using the turnbuckle fixings to hold it in place.
